

**sword**

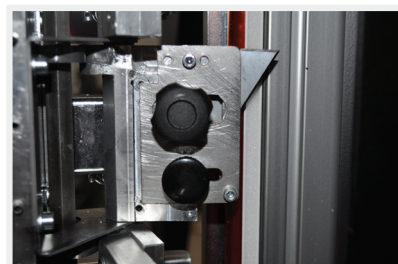

Multimaterial vertical cutter

Sword is an entry-level vertical cutting system designed and based on the real needs of the little-medium sign makers, stand organizers and shops, industrial and crafts companies with high cutting volumes. Very light and user friendly together with an exceptional power of cutting and many other innovative functionalities to work any kind of panels and media aluminium included. A dream that comes true!

**Fixed blade "1"**  
Thickness from 1 to 30mm.

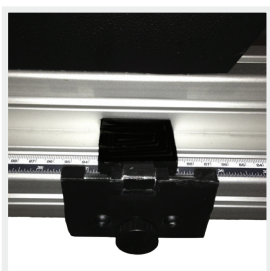

**Fixed blade "2" Thickness**  
from 1 to 10mm.

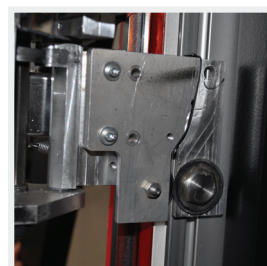

With foot adjustment and blade guide.

You carry out the cut in two steps  
1) from up to down 2) Down to up

**Millimetric scales** for a perfect material alignment.

**Blade "3" Optional.**

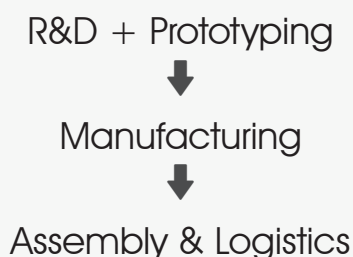

**WHY NEOLT**

Is the only 100% Italian and Italy-based manufacturer of UV inkjet printing technologies with the capacity and potential to design and build totally machines that produce.

**THE FACTORY**

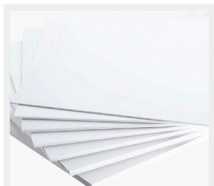

**HOW WORK**

- Design & prototyping
- Cutting of raw plate
- Folding
- Welding
- Varnishing
- Quality control of semiprocessed materials
- Pre-assemblage of subgroups
- Final assemblage
- Testing
- Final quality control
- Delivery

“ The max versatility  
for a world of graphic  
applications on both rigid  
and flexible.

Foam

### Fixed blade "1" Thickness from 1 to 30 mm.

Materials:

- ✓ Cardboard
- ✓ Foam Kmout
- ✓ Gato foam
- ✓ Spongy media
- ✓ Plastic expanded polhyurethane
- ✓ Film
- ✓ Plastic alveolar
- ✓ Reboaed

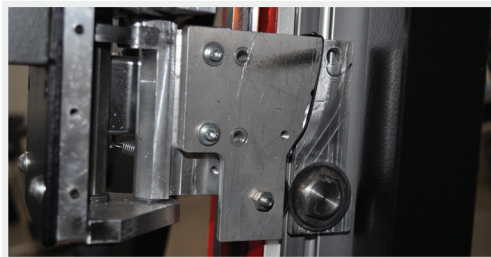

### Fixed blade "2" thickness from 1 to 10 mm.

Materials:

- ✓ Leather
- ✓ Forex
- ✓ Plastic from 0,5mm.

You carry out the cut in two steps:

- 1) from up to down.
- 2) Down to up

### "3" Optional.

Blade for Dibond thickness from 1 to 4 mm.

Vcut blade thickness from 5 mm to 30 mm.

Materials:

- ✓ Reboard
- ✓ Spongy media
- ✓ Plastic expanded

Blade Glasscut: glass from 1 to 2 mm

Blade PlexCut: plexiglas from 1 to 3 mm

### Main features:

- + Millimetric base for tool positioning.
- + Light body frame but strong and reliable.
- + Quick tools change: with two units always installed and a third optional
- + Two rotary blades: one moving and one fixed for forex e foam.
- + Tool for dibond and aluminium cut.
- + V-cut tool for cardboard angular cut at 60°and 90°
- + Diamond wheel for glass engraving.
- + Oversize and strong support base to feed big dimensions panels
- + Available in two heights: 165 or 210 cm.
